

behindbars

the complete bar service

Always wanted to learn how to make drinks and impress your friends?

Well now you can with the behind bars team building experience. Whether it is in a company fun day or one to one tuition, why not learn and have fun with behind bars?

THE BEHIND BARS INTERACTIVE TEAM BUILDING EVENT.

The service is completely mobile and can be held in either your company offices or a pre arranged venue.

Guests are greeted with canapés and a selection of drinks including fresh alcoholic and non alcoholic cocktails served by our waiting staff.

An introduction is given into the art of flair bartending, cocktail mixology and bar magic.

Guests are then put into teams, arranged prior to arrival to participate in the team building activities. A branded bar apron is also provided for each guest...just in case of any spills!

Three equally timed interactive sessions, each one tutored and observed by a professional behind bars bartender with the option of a break for food or light snacks after the second round.

On completion of all the activities each team then gets the opportunity to show off their skills to each other for one final time to find the winners.

After the final round the behind bars team will judge all the performances and skills learned before announcing the winners.

Prizes can include hard back cocktail recipe books, branded cocktail shakers and even branded mp3 players containing drinks recipes for all your guests to learn to make at home. They also get to keep their branded bar apron to remind them of their special day.

To accompany the mood of your event we can include background music and a behind bars photographer to capture the event in digital pictures.

Here is what our clients are saying.....

The crucial ingredient for every cocktail experience. Shaken, stirred, blended and served with an exciting routine combined with sophistication, entertainment and elegance every time.

Thank you behind bars!

Jonathan Gilbert
Director, Live Events & Productions Ltd.

.....behind bars have been providing a cocktail 'Mix It' workshop for our hands on 'Create It' event for 2 years now. They are extremely professional in their approach, offering talented staff who ensure an interactive and fun experience for all our clients.
